THINK BIG! HOLD THE WORLD

Save your money

Gülmak İstif Makinaları was founded by Selim Gül in 1968 to provide maintenance activities for forklift trucks and construction machineries.

Defining it is product sections under the brand name of "Wagger Attachments" in 2004, the company gained speed that enable itself to offer quality forklift and telehandler attachments in local and global markets of material handling sector. Wagger has a company vision of finding cost effective solutions for its customers with a short lead time by aiming the satisfaction of its customers, dealers and employees. Today Wagger Attachments is still a family running business and is proud of being the leader attachment manufacturer in Turkey.
